

The figure displays a 10x10 grid heatmap. The top-left corner contains a cluster of high values, represented by yellow and red squares. Specifically, the top row has a yellow square at (1,1), a red square at (1,2), and a dark red square at (1,3). The second row has a yellow square at (2,1) and a dark red square at (2,2). The third row has a yellow square at (3,1) and a dark red square at (3,2). The fourth row has a yellow square at (4,1) and a dark red square at (4,2). The fifth row has a yellow square at (5,1) and a dark red square at (5,2). The sixth row has a yellow square at (6,1) and a dark red square at (6,2). The seventh row has a yellow square at (7,1) and a dark red square at (7,2). The eighth row has a yellow square at (8,1) and a dark red square at (8,2). The ninth row has a yellow square at (9,1) and a dark red square at (9,2). The tenth row has a yellow square at (10,1) and a dark red square at (10,2). The rest of the grid is dark blue, indicating low values.
